

## INDEX OF TABLES AND FIGURES

### TABLES

#### THE HUNGARIAN LABOUR MARKET

Table 1: Some of the more relevant details of the development of the number of public employees, 2017–2019 .....	20
Table 2: The employment rate of those aged 15–64, by educational attainment and sex .....	22
Table 3: The rates of those in part-time employment and fixed-term contract employment in 2019, by sex Quarter IV (percentage) .....	24
Table 4: Registered job-seekers (thousands of persons) .....	29
Table 5: The average gross earnings of those in full-time employment, by economic activity branch, 2019 ...	32

#### POLICY TOOLS

Table A1: Expenditures and revenues of the employment policy section of the national budget, 2013–2020 (million HUF) .....	45
Table 3.1: Enterprise typology based on economic perceptions of the coronavirus pandemic and the decrease in capacity utilisation .....	57
Table 3.2: The context of exposure to the coronavirus pandemic, logit estimation, average marginal effects ..	59
Table 3.3: Ability to meet financial obligations and maintaining headcount without using supplementary external resources, at April 2020 capacity levels (per cent) .....	61
Table 3.4: The context of dismissals and staff increases, logit estimation, average marginal effects .....	62
Table 3.5: Changes in the total headcounts of employee categories between 1 March and April 2020 among Hungarian businesses with at least 2 employees .....	63
Table 3.6: Employees of Hungarian businesses employing at least 2 persons broken down by work arrangement on 1 March and 1 April 2020 (percentage) .....	64

#### IN FOCUS

Table 1.1: Differences in employment rates between countries, controlling for age, qualification, and the distribution of health, among individuals aged 57–64 .....	82
--	----

Table 1.2: Employment rate by drug consumption and three-year mortality (net out gender, age and calendar year effects, percentage) .....	83
Table 2.1.1: Indicators of health behavior and healthcare access .....	91
Table 2.2.1: Differences in the morbidity rates of disease groups in the age group of 20–65, by entitlement and educational attainment .....	98
Table 2.2.2: Differences in the rates of specialised health service utilisation in the age group of 20–65, by entitlement type and educational attainment, 2019 .....	100
Table 2.2.3: Differences in the expenditure rates per patient in the age group of 20–65, by entitlement type and educational attainment .....	102
Table 3.2.1: The impact of health shocks on employment by firm type (linear probability model with fixed effects) .....	116
Table 3.3.1: Work accident rates per one-hundred thousand employees in the EU, 2017 .....	119
Table 3.3.2: Work accident rates per one-hundred thousand employees in Hungary, 2009–2018 .....	120
Table 3.3.3: The share of sectors and size of enterprises in total and fatal accidents, 2011–2017 .....	121
Table K3.3.1: The effect of the establishment of new outpatient care units on different health care utilisation variables, by labour market income groups .....	133
Table K3.3.2: The effect of the establishment of new outpatient care units on employment outcomes ..	133
Table K3.4.1: Health differences between migrant and native groups in 2013 .....	135
Table 4.1.1: The annual average healthcare service use rates of physicians, specialised healthcare workers, those with a tertiary educational attainment, and the adult population, between 2009 and 2017 .....	137
Table 4.1.2: The use of various healthcare services among specialised healthcare workers, relative to the adult population of at least 24 years of age (excluding physicians) .....	138

Table 4.1.3: The use of various healthcare services among active and former physicians, relative to the adult population with tertiary educational attainment .....	139
Table 4.1.4: The likelihood of the occurrence of certain chronic and acute diseases and of taking antibiotics on a regular basis, relative to the adult population of at least 24 years of age .....	139
Table 4.1.5: The likelihood of the occurrence of certain chronic and acute diseases and of taking antibiotics on a regular basis, among active and former physicians, relative to those with a tertiary educational attainment who are in employment .....	139
Table 4.2.1: Moves abroad for work – sub-hazard rates .....	144
Table K5.1.1: The use of public health care following entry into public works .....	153
Table 5.2.1: Health measures regressed on experienced difficulties occurring in 1987–1993 in CEE (logit odds ratios) .....	155
Table 6.1.1: Effect of health status on continued work .....	159
Table 6.1.2: Effect of old-age retirement on annual health expenditure, females .....	160
Table 6.1.3: Effect of old-age retirement on quarterly health indicators, males .....	161
Table 6.2.1: The ten most frequent disease groups with SHS leading to death in Hungary .....	165
Table 7.1.1: Difference between the employment rates of populations with and without disabilities aged 19–64, broken down by factors, 2017–2019 .....	174
Table 7.2.1: The main insured cash benefits for persons with reduced work capacity .....	182
Table 8.1.1: The effect of the time spent in hospital on outcomes ....	195
Table 8.1.2: The effect of the length of the hospital stay on the mathematics added value, by the attainment level of the mother .....	196
Table 8.2.1: The effect of unemployment on teenage motherhood ....	202

Table 9.2.1: Employment – Selected indicators .....	214	Table 4.5: Composition of the employed by level of education, males, per cent .....	245	economic activity as observed in the LFS, per cent .....	260
Table 9.2.2: The share of the unemployed by various indicators .....	214	Table 4.6: Composition of the employed by level of education, females, per cent .....	245	Table 5.11: Monthly entrants to the unemployment register, monthly averages, in thousands .....	260
Table 9.2.3: The share of those working remotely during the four weeks preceding the survey .....	215	Table 4.7: Employed by employment status, in thousands .....	246	Table 5.12: Selected time series of registered unemployment, monthly averages .....	261
Table 9.2.4: Changes in the employment rate by groups .....	216	Table 4.8: Composition of the employed persons by employment status, per cent .....	246	Table 5.13: The number of registered unemployed who became employed on subsidised and non-subsidised employment .....	262
Table 9.2.5: Odds of losing employment between January-February and April-May in 2019 and 2020 .....	218	Table 4.9: Composition of employed persons by sector, by gender, per cent .....	247	Table 5.14: Benefit recipients and participation in active labour market programmes .....	263
Table 9.2.6: Fraction working at home occasionally or regularly ..	220	Table 4.10: Employed in their present job for 0–6 months, per cent .....	247	Table 5.15: The ratio of those who are employed among the former participants of ALMPs, per cent .....	264
Table A9.2.1: Observations in the LFS, 2020 (number of persons) ..	222	Table 4.11: Distribution of employees in the competitive sector by firm size, per cent .....	248	Table 5.16: Distribution of registered unemployed, unemployment benefit recipients and unemployment assistance recipients by educational attainment .....	265
Table A9.2.2: The employment rate of the population aged 15–64 years in various samples .....	223	Table 4.12: Employees of the competitive sector by the share of foreign ownership, per cent .....	248	Table 5.17: Outflow from the Register of Beneficiaries .....	266
<b>STATISTICAL DATA</b>					
Table 1.1: Basic economic indicators .....	229	Table 4.13: Employment rate of population aged 15–74 by age group, males, per cent .....	249	Table 5.18: The distribution of the total number of labour market training participants .....	266
Table 2.1: Population .....	231	Table 4.14: Employment rate of population aged 15–74 by age group, females, per cent .....	249	Table 5.19: Employment ratio of participants ALMPs by gender, age groups and educational attainment for the programmes finished in 2019, per cent .....	267
Table 2.2: Population by age groups, in thousands .....	231	Table 4.15: Employment rate of population aged 15–64 by level of education, males, per cent .....	250	Table 5.20: Distribution of the average annual number of those with no employment status who participate in training categorised by the type of training, percentage .....	267
Table 2.3: Male population by age groups, in thousands .....	233	Table 4.16: Employment rate of population aged 15–64 by level of education, females, per cent .....	251	Table 5.21: The distribution of those entering training programmes by age groups and educational level .....	268
Table 2.4: Female population by age groups, in thousands .....	233	Table 5.1: Unemployment rate by gender and share of long term unemployed, per cent .....	252	Table 6.1: Annual changes of gross and real earnings .....	269
Table 3.1: Labour force participation of the population over 14 years, wherein thousands .....	234	Table 5.2: Unemployment rate by level of education, males .....	253	Table 6.2.a: Gross earnings ratios in the economy .....	270
Table 3.2: Labour force participation of the population over 14 years, males, in thousands .....	235	Table 5.3: Composition of the unemployed by level of education, males, per cent .....	253	Table 6.2.b: Gross earnings ratios in the economy, per cent .....	271
Table 3.3: Labour force participation of the population over 14 years, females, in thousands .....	236	Table 5.4: Unemployment rate by level of education, females .....	254	Table 6.3: Regression-adjusted earnings differentials .....	272
Table 3.4: Labour force participation of the population over 14 years, per cent .....	237	Table 5.5: Composition of the unemployed by level of education, females, per cent .....	254	Table 6.4: Percentage of low paid workers by gender, age groups, level of education and industries .....	273
Table 3.5: Labour force participation of the population over 14 years, males, per cent .....	238	Table 5.6: The number of unemployed by duration of job search, in thousands .....	256	Table 7.1: Graduates in full-time education .....	276
Table 3.6: Labour force participation of the population over 14 years, females, per cent .....	239	Table 5.7: Registered unemployed and LFS unemployment .....	258	Table 7.2: Pupils/students entering the school system by level of education, full-time education .....	277
Table 3.7: Population aged 15–64 by labour market status (self-categorised), in thousands .....	240	Table 5.8: Composition of the registered unemployed by educational attainment, yearly averages, per cent .....	259	Table 7.3: Students in full-time education .....	278
Table 3.8: Population aged 15–64 by labour market status (self-categorised), per cent .....	241	Table 5.9: The distribution of registered unemployed school-leavers by educational attainment, yearly averages, per cent .....	259	Table 7.4: Students in part-time education .....	279
Table 4.1: Employment .....	242	Table 5.10: Registered unemployed by			
Table 4.2: Employment by gender ..	243				
Table 4.3: Composition of the employed by age groups, males, per cent .....	244				
Table 4.4: Composition of the employed by age groups, females, per cent .....	244
